SUBJECT: March 13, 2023 CFAC Recommendation on the Proposed Out of State
    and International Student Fee

In accordance with CSU Student Fee Policy (EO 1102) the Campus Fee Advisory Committee (CFAC) shall consider proposals for the establishment of category II fees and make a recommendation to the president. The president shall consult with CFAC before requesting the chancellor establish any category II fees (subject to approval in writing).

The university conducted an alternative consultation process as the mechanism for appropriate and meaningful consultation for a proposed category II Out of State and International Student fee. This process included 21 student forums held over the three-week period of February 13 through March 4 in which students were provided with a presentation on the proposed fee and then engaged in dialogue before completing a feedback form.

The results of feedback forms, inclusive of qualitative comments, from the alternative consultation process were shared with CFAC prior to its March 13, 2023 meeting. CFAC voted on a motion to de-recommend the proposed new category II Out of State and International Student fee with 10 in favor and 5 opposed. Enclosed please find
